

Indoor Air Quality★HVAC★Mold Remediation★Ventilation & Filtration★Moisture Control

March 17, 2020

To Our Valued Customers:

Like me, I'm sure you have been receiving updates from many of the companies you do business with about how they are responding to the current health crisis. We also wanted to share how we are working to meet your needs during these uncertain times.

Ocean State Air Solutions remains vigilant in our commitment to implementing ongoing best practices to assure the well-being of our employees and the continued support of our customers.

- Our Office and Warehouse Facilities are being cleaned and sanitized daily.
- Our Company Vehicle interiors are wiped down daily with Lysol and Clorox wipes.
- Our Office has containers of hand sanitizers Purell throughout.
- Extensive training on what COVID-19 is, how to prevent it, including washing of hands and face regularly throughout the day has been enforced with each employee, based upon CDC (Center for Disease Control) and WHO (World Health Organization) recommendations.
- Our Employees are asked to stay home if they are showing any signs of illness.

We are open and will continue to provide all services as usual. All employees who enter your home are armed with latex gloves, plastic booties, face masks and a small bottle of Purell. If you wish them to use any of these extra items, please just let them know. If you have any questions or concerns about installations or in-home consultations, we are here to address them and offer flexibility to reschedule at your convenience. Please contact us at for anything.

Wishing you peace and good health,

Craig L. Clark
